

**C-, INSAT C-, and Ku-Band
Fast installation, interchangeable feeds**

ValuStar™ 1.2m - 3.6m Earth Station Antennas

ValuStar™ antennas from Andrew Corporation are small-diameter, superior quality, earth station antennas for professional services where reliability and durability are essential. They are ideal for broadcast distribution applications.

ValuStar antennas are available in sizes from 1.2 to 3.6 meters and feature an interchangeable, high performance, dual-polarized receive only feed system that provides optimum gain.

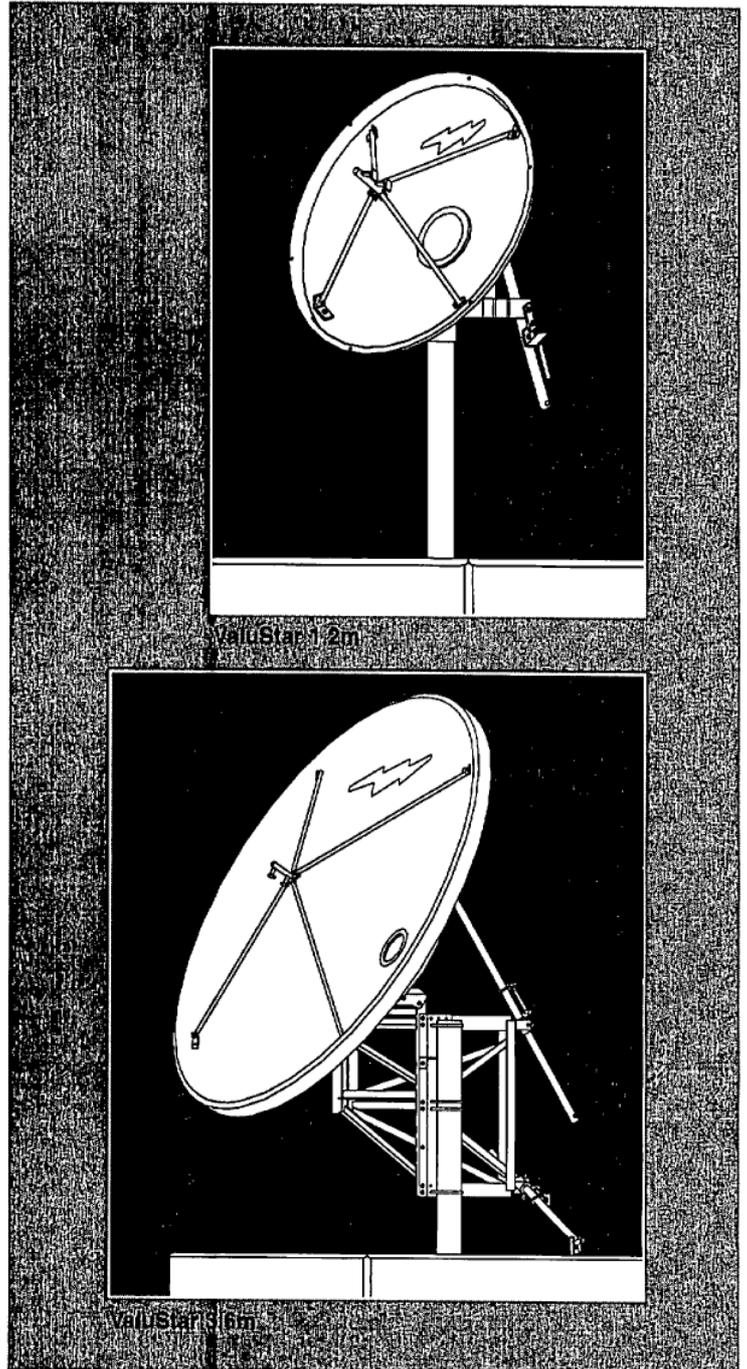

To reduce overall project costs and allow local product manufacture and labor content, the basic antenna is provided with a high-quality azimuth/elevation mount. This mount can be connected to either an Andrew provided (vertical) pipe PIPE [], or a customer provided (vertical) pipe, and can be held in the vertical position by casting it into a concrete foundation. An optional mount MNT [] can be offered to bolt to a foundation or other suitable mounting structure.

The antennas use rugged, high accuracy, spun aluminum reflectors which are conversion coated and painted white.

Hot-dip galvanizing of the steel mount parts and careful choice of all materials ensure reliable performance and long life in adverse environments.

Features:

- *C 3.625-4.2 GHz
UC 4.5- 4.8 GHz
Ku 10.7-12.75 GHz*
- *Dual Polarized, High Gain*
- *125 mph (200 km/h) Wind Survival in any position*
- *Anti-icing Options*
- *Fast, Simple Installation*

ANDREW®

Specifications

Antenna Type	ES12			ES18			ES24			ES30			ES36

Surface Anti-Icing options:															

Antenna reflector surface anti-icing systems are available to prevent snow and ice from forming that would otherwise accumulate on the antenna reflector and affect the signal quality. These systems heat a 360 degree region of the reflector and come supplied with a precipitation sensing device, a temperature sensing control unit and all inter-connecting cables. In addition, a dish centre heater is available, for use where ice and snow conditions may be severe.
